8	Observations of the Inspecting Officer:		
	<p>I visited the fishing site of the applicant. At the time of visit, I observed that the applicant was engaged in procuring fish from the fishermen for onward sale. I learnt from the fellow fishermen that she is engaged in this activity since _____. As per information given, she started this activity in a very small scale and has grown up to a considerable level. She wants to expand her activity in order to earn more income. There is good scope for sale of fish in the surrounding market.</p> <p>Considering the above facts and looking to the genuine requirement of the applicant, we may consider her loan application favourably.</p> <p>Any other remark:</p>
